

Join the Fight Against Breast Cancer by Choosing Cleaner-Burning Unleaded 88 this October.

W & H Cooperative Oil Co has joined forces with the Iowa Renewable Fuels Association, Iowa Corn Promotion Board, National Breast Cancer Foundation, and The Hormel Institute for this year's **Pink at the Pump**[®] campaign to help combat breast cancer through the use of cleaner-burning Unleaded 88.

We'll donate 3-cents for every gallon of Unleaded 88 purchased throughout the entire month of October to National Breast Cancer Foundation and The Hormel Institute to help fight breast cancer through early detection, education, support services, and research.

We already know Unleaded 88 is better for your engine and better for the planet, but it's also better for your health because it contains less toxins and cancer-causing chemicals than straight petroleum gasoline. By choosing Unleaded 88 at **Fort Dodge Ampride, Humboldt Ampride and Eagle Grove Ampride** during the month of October, you're not only supporting a cleaner-burning fuel, you're helping combat breast cancer! Unleaded 88 is approved for use in 2001 and newer vehicles.
